

Word association map

Objectives

To expand our point of view of a word.

Pause

Use the title of your photo album (or if done independently, then any word you'd like to focus on), and write it in the top box.

Expand & Connect

Look at the card and write down a word your first association to each word. Just follow the chart... or "This process by passes logic". Don't think too much. :)

Focus & Action

Take your pen and draw a vertical line between the first word to the last. Do you see any meaningful connections between these two words for you? What do you take with you from this process?
