Set & Flow YOGA

1619 N. La Brea Ave, LA, CA 90028

Is a modern take on traditional practice. While fitness is a huge component of Set & Flow Yoga, the word yoga is emphasized for many reasons. We believe in the barefoot culture, we believe your body is your machine. We believe that yoga is not just something that you do but something that can be practiced across all movement discipline. Breathe, alignment, dedication, edge, balance, strength, and flexibility are fundamental ideas that exist in all of our classes.

You no longer need a personal trainer when you become apart of the Set & Flow Yoga community. All of our classes have highly skilled and accredited teachers who instruct to beginners and experts alike. Whether you're a first timer or elite, you will find Set & Flow Yoga classes challenging and rewarding.

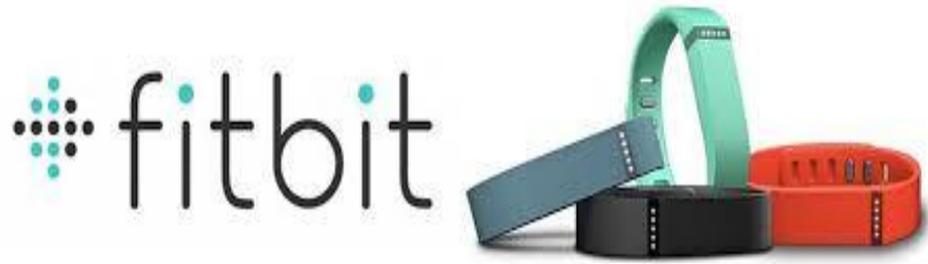

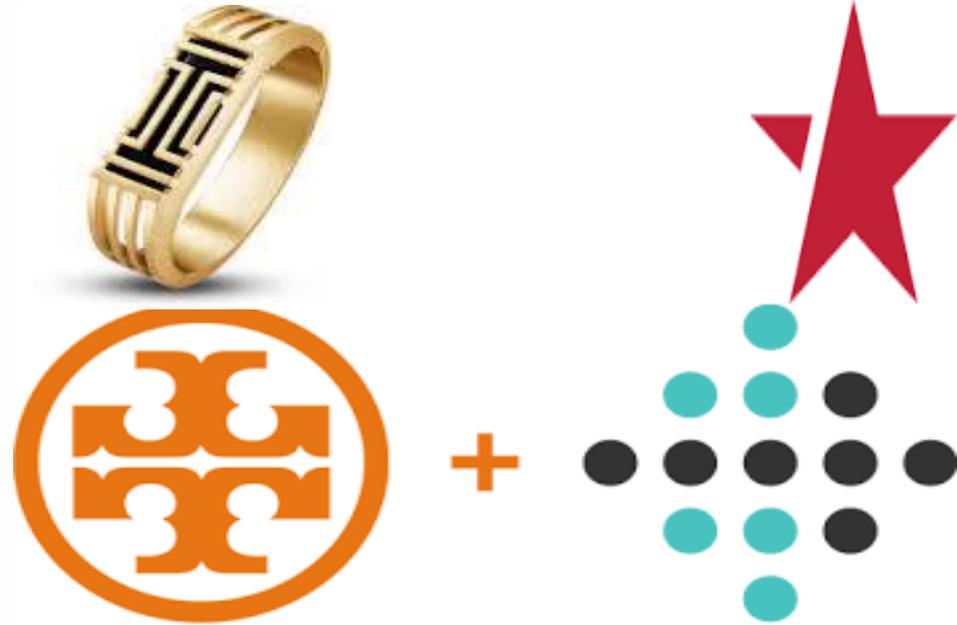

We become a family of friends who help each other reach the next goal.

Meditation

Katie Manzella is a Certified Crystal Alchemist, Reiki Healer and Clairvoyant who assists her clients in mental, physical, emotional and spiritual healing. She calls upon Cosmic and Angelic guidance and support to clear away lower energies, transmute disharmony into divine love and dissolve self imposed boundaries and limitations. By acting as a conduit of Light, Katie invokes sacred Universal powers with the intention of clearing and harmonizing the chakras, stimulating the senses and restoring balance. In raising their vibration, she gently facilitates core issues to come to surface for release, creating space for higher frequencies of being.

Born and raised in the Pacific Palisades, Katie was first introduced to crystals in 2010 during a session with her personal healer. The experience made a profound and extraordinary impact on her life. Ever since, she has embarked on a self empowering journey, realizing the more darkness we may experience is in order for us to sustain more Light. Trained and certified at the renowned Aura Shop in Santa Monica, Katie integrates her knowledge of crystals and metaphysical studies along with the combined alchemy of Reiki, breathwork, yoga, meditation, sacred ceremonies and Lightwork to illuminate the space and command divine perfection during sessions.

Massages

Kenneth Mayfield, II is a Certified Massage Therapist that believes with each touch a professional healing relationship is in formulation. He believes it is very essential to not only physically provide aid in massage, but also spiritually as well as mentally provide healing. Every individual is unique and different in his/her own way. Therefore he believes in customizing the client's massage depending solely on their own total well-being and necessities.

We will also have a room with meditation music and scents to awaken the soul for anyone who chooses to detox along with some specialty teas and aromatherapy

Facials

For years, RamPrakash Khalsa – “RPK” to those who know her best – has been recognized as one of the top aestheticians in Los Angeles, and remains an expert in her field. The Los Angeles elite return to her for a very simple reason: she treats the body, mind and soul together, effectively understanding that skin does not operate independently.

Catering
