Please call (281) 668-3211 immediately upon arrival to check in.

Scheduled Date and Time: 10/1/2021 9:00:00 AM

Scope of Work:

SOW

PHONE LINES ISSUE

Customer has an immediate need for us to get started looking for a resource that can hopefully get these lines operational again by Friday of this week (and if not Friday, as soon as possible). Not sure where it got lost, but apparently there was a move completed that Verizon did and as Verizon does, they stated they are good to the punch down. We need the following:

7 POTS lines cross connects punched down

2 are emergency lines (fire alarm and such) which makes this a priority – the customer is pretty sure they know where these cables are

5 may need to be tagged and toned as they are not positive where they go.

EXECUTION
