

Proposed Squash complex Available for Lease (New Development open 2019)

Expression of Interest Requested.
DREAMFIELD Brisbane Airport

DREAMFIELD's precinct at the Brisbane Airport is a purpose-built model focusing on development protocols that together and individually deliver unparalleled levels of health, wellbeing and performance for employees and organisations alike.

The **DREAMFIELD** precinct delivers a unique and pioneering approach to human collaboration by partnering with leading organisations in the fields of sport, Arts and cultural endeavours, as well as education and training.

The Brisbane Airport is the main domestic and international gateway to Brisbane and Queensland and has currently 31,000 people working. This figure is expected to jump to 50,000 by 2025.

The **DREAMFIELD** precinct covers approximately 20 hectares and there are plans for a number of State and National sporting bodies to base their operations within the **DREAMFIELD** facility.

DREAMFIELD is less than 20 minutes drive from the Brisbane Central Business District and is less than 15 minutes driver from the surrounding northern suburbs. As part of its features matrix, **DREAMFIELD** plans to establish a world-class Squash Centre with between 8 to 12 courts.

DREAMFIELD's Squash facility is being planned as part of the Master Planning of the precinct and potential experienced operators are being sought and are encouraged to have input into the final model.
