

SEDUM PACHYPHYLLUM
“JELLY BEANS”

IDEAL LIGHT

Prefers full sun but can tolerate shade and indoor growing.

WINTER HARDINESS

Not frost tolerant - protect from freezing

PROPAGATION METHODS

Leaves and stem cuttings

WATER NEEDS

Water only when soil is dry

MATURE SIZE

1 foot tall | 3 feet wide

ADDITIONAL NOTES

This silver-green succulent has short, thick leaves and a woody stem. Once it begins to trail, this Sedum is great for ground cover. Watch for yellow flowers in the summer.

Sedum pachyphyllum adds great “thriller” to succulent arrangements as it grows, and then “spiller” when it begins to trail, making it perfect for hanging baskets or rock gardens.
