SOW: The store needs a new phone set up in the service aisle for x4110. Confirm the location they want this phone set up and see if there is an available voice jack. If there is, cross connect the cable in the PBX room on the 110 block to the 20th pair on 110 block row 138v4. Hook up the phone and test to confirm it works.

If there is no jack, get photos of the location and work with NET to survey for running a new cable.
