The Aspen Leadership Group is proud to partner with the Lucile Packard Foundation for Children's Health in the search for an Associate Director, Major Gifts.

The Associate Director, Major Gifts will join a dynamic team dedicated to raising resources to improve child and maternal health. The Lucile Packard Foundation for Children's Health is the sole fundraising entity for Lucile Packard Children's Hospital Stanford and the child health programs at Stanford University School of Medicine. The Foundation is named for Lucile Salter Packard, who committed her life to the well-being of children. Lucile, along with her husband David (co-founder of Hewlett-Packard), were leaders in the development of Lucile Packard Children's Hospital Stanford, which opened in 1991. In 1996 the Hospital merged with Stanford University Medical Center, and the Foundation was established as an independent public charity to ensure a source of dedicated funding and support for the health of children. Governed by a Board of Directors, all philanthropic dollars raised by the Foundation are directed to Packard Children's Hospital and the Stanford University School of Medicine.

The Lucile Packard Foundation for Children's Health works to elevate the priority of children's health and increase the quality and accessibility of children's health care through leadership and direct investment. The goal for the Foundation is for all children in the communities served to reach their maximum health potential.

The Foundation focuses on two program areas: fundraising for Packard Hospital and Stanford School of Medicine and improving systems of care for children with special health needs. Philanthropy aims to support clinical care, research, and education to improve the health of children and expectant mothers locally and worldwide. This means providing the best pediatric and obstetric care available and allows scientists to pursue exciting new cures for childhood illness.
