

ALOE JUVENNA
“TIGER TOOTH ALOE”

IDEAL LIGHT

Full sun to partial shade

WINTER HARDINESS

Not frost tolerant - protect from freezing

PROPAGATION METHODS

Offsets

WATER NEEDS

Water only when soil is dry

MATURE SIZE

1 foot tall | 2 feet wide

ADDITIONAL NOTES

Aloe juvenna “Tiger Tooth Aloe” is a beautiful Aloe whose white-spotted spiked leaves stack and form a rosette. When “happily stressed,” green leaves turn reddish-brown.

“Tiger Tooth” is a fun Aloe that does well in warm and dry climates. It’s very tough and adapts easily to new environments. The “teeth” are spines that form along the leaves’ edges, making the rosette look like a tiger’s jaws.
