Scope of Work

CVS – Demarc to Phone Cabinet [Extend] Store Line

NET techs will LOG IN/LOG OUT LIVE by calling (608) 827-2283. DO NOT AUTO LOG IN*

Need tech to extend connection for new store line [9172658802 & 9172658838] from the demarc to the A-row (Green Jacks) located in the white phone cabinet. Tech will need to find dialtone on the orange telco 66 block and then cross connect the line over to CVS's 66 blocks. One of the 2 CVS blocks will have a 25 pair Amphenol cable that runs to the A row in the white phone cabinet which is typically located in the Manager's office or in the back demarc area. Once cross connect is made at the demarc, dialtone should carry through to the A row, located in the phone cabinet. Once dialtone is established to the A row tech will need to call into NET for PBX cross connect port.

There are existing lines in these ports and can be removed. These lines are replacing them. Please cross connect to B-22 and C-2

***Analog connection is typically in the phone cabinet located either in the Manager's Office or back demarc area
