#### Scope of Work

REVISIT - CVS Server Upgrade Project- HPE Gen10 server SOW

NET techs will LOG IN/LOG OUT LIVE by calling (608) 827-2270

CALL CVS\_ROC 888-401-4601, Option 4.4 \*\*In order to ensure accurate onsite times, tech will need to log in with NET Support and then immediately log in with CVS ROC. At log out, ROC will provide you a log out code.

If the store personnel question the validity of this visit, the manager can call 888-401-4601, Option 4.4 (CVS-ROC) or can reference this CVS Help Desk ticket number: INC8128517

PPE requirement: Use of Face Masks or Cloth Face Covers

Main SOW: To install a new HPE ProLiant Gen10 server

Description of Work to be performed-Please refer to the most recent CVS Redbook for exact instructions

- Obtain permission from the Manager to locate the boxes that was shipped to the store
- Perform an inventory of the boxes and notify the ROC of your findings
- Work with ROC to determine where the new VMS Server will be installed (some sites will install it in a full sized rack, some will be installed in the manager's office)
- Install the VMS Gen10 Server per CVS instructions
- Connect VMS Gen10 Server to Network
- Power up the VMS Server
- Perform conversion steps on configuration on the VMS Server as per CVS instructions
- Once conversion process on VMS server is complete notify the ROC
- Once completed the Pharmacist/Pharmacy Tech will need to test out equipment in the pharmacy
- After the Pharmacist/Pharmacy Tech confirms everything is working the ROC will perform some equipment testing.
- De-Install existing RX and App Blades from within Blade Chassis per CVS instructions
- Based on the Redbook pack up all of the old equipment including the existing DVR system and RX/App Blades and affix tracking labels sent with the new equipment so that the old equipment gets picked up and shipped out of the store
- Prior to logging out with the ROC the technician must send both the pre and post installation pictures of the rack and installation (details to be provided in the CVS instructions)
- Clean up managers office and take photo
- Call ROC to log out
- Call NET to log out
