## **Atmosphere Foldable:**

Fold paper hot dog style. Open up.

Fold paper to the folded line in the middle of the paper.

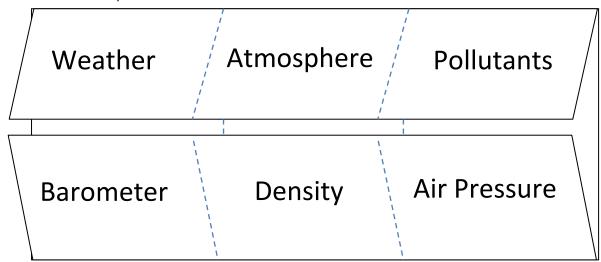

(You should have four horizontal boxes from the folds)

Now fold the paper into thirds.

Words on the Front Flaps:

On the inside of each flap:

	Weather	Atmosphere	Pollutants
-	<b>Definition</b> (for Barometer)	Definition (for Density)	Definition (for Air Pressure)
	Example (for Barometer)	Example (for Density)	Example (for Air Pressure)

## On the Backside:

Like your group project.

Include layer labels, height in km, and color. Include pictures if you have time.
