Scheduling

2 billable technician required Arrival Time: 10/13/2021 10:00 AM

Scope of Work

2021 Dunkin Donuts – Acrelec Kiosk Installs

Techs must log in/out with NET Support. Escalate Questions or issues to NET - Josh Rasing 217-691-5960.

Kiosk format: (1) - Floor Mount Kiosk with ceiling power pole

Refer to the scope document to verify needed tools.

It is recommended that techs bring 3/8" x 3" Redhead concrete anchors and the corresponding drill bit for tile/concrete in order to avoid having to use the sleeve anchors

Check in onsite with the POC and/or GC

Verify that power has been installed for the kiosks. If either is not in place, escalate to NET support immediately.

BE PREPARED TO RUN DATA AS NEEDED.

Locate the kiosk shipment that was sent to site, including the ceiling pole(s) (if applicable)

Locate the Verifone payment device(s) – 1 per kiosk – That were shipped to the store separately. May need to ask site contact where they are being held

Verify the mounting location of the kiosk(s) before starting work. We need to make sure they are placed correctly BEFORE drilling any holes. This includes placement and the angle they will be mounted at to be facing the customer path of travel.

Once mounting locations are confirmed, follow the install manual to proceed through the install.
Make sure to take photos throughout the install.

If there are any issues or questions, call Josh Rasing

All testing must be done with Acrelec - Jay 412-584-1677

Send all photos to dss@nettechnology.com with the work order ID in square brackets on the subject line – EXAMPLE:
