

GRAPTOVERIA 'SILVER STAR'

IDEAL LIGHT

Full sun to partial shade

WINTER HARDINESS

Not frost tolerant - protect from freezing

PROPAGATION METHODS

Leaves and offsets

WATER NEEDS

Water only when soil is dry

MATURE SIZE

3 inches tall

ADDITIONAL NOTES

‘Silver Star’ is a Graptopetalum and Echeveria hybrid. Its long, silver-green leaves can be tipped with red when “happily stressed.” This succulent grows pink and white flowers in the Spring.

‘Silver Star’ is a favorite among succulent lovers, and for good reason. This succulent adds a lot of interest to your summer succulent garden.
