

Mission Statement

Care 4 Kidz organization will give the at-risk-youth fortuity to experience a diverse atmosphere and exposure to environments that promote their educational strengths.

About Us

Care 4 Kidz is an at-risk-youth organization designed to provide mentorship and educational development opportunities through our after school programs. The impact of the programs will give youth direction to become the next entrepreneur of the 21st Century.

We started formally in 2015 and began our program in the City of Los Angeles. As an at-risk youth organization we offer reading, music and sports as an outlet to personal expression.

Each mentorship program operates yearly to benefit growth and positive reinforcement in the lives of our youth. Care 4 Kidz has teamed with local counselors, teachers, business professionals and local sports organizations in providing mentorship to our at-risk youth for commitment to work, education, responsibility and family.

Participation

At-risk-youth between the ages of five (5) to seventeen (17) years of age are eligible to join any of our programs with parents' permission.

Mentorship Programs

Each mentorship program operates yearly to benefit growth and positive reinforcement in the lives of our youth. Care 4 Kidz has teamed with local counselors, teachers, business professionals and local sports organizations in providing mentorship to our at-risk youth for commitment to work, education, responsibility and family.

Participants in the mentorship programs will follow standard-based curriculums set for high expectations for every youth member. The program experience engages each "at-risk" youth in active learning and supports their success by making rigorous content and material accessible to each member at their level of academic readiness, yielding increased youth outcome.

Programs exclusive systems include mentors engaging direct instruction, interactive practice and application that covers each session scheduled curriculum for every youth member. A weekly review is recorded on their personal student report which identifies their level of success in the program.

Below are the Mentorship Programs offered by Care 4 Kidz;

Learning Program

Study Buddy and Friendz is a curriculum based reading program geared towards teaching the fundamentals and traditional elements of modern and classical literature, math and science.

Purpose of the program is centered on a variety of activities which stimulate our “at-risk” youth physical, social, emotional and intellectual development. Each session our mentors will encourage progress through a challenging learning experience consistent with their development needs. Much design is given to provide a well-rounded curriculum that measures performance utilizing a wide variety of educational programs, learning activities and trips.

Advance Technology Program

Linez in Motion is a computer learning program concentrated on general usage, programming and graphic design. Classes will be operated in partnership with the community.

Purpose of the program is designed to instruct basic computer operation skills and introduce the most essential computer software. Participants will also gain skills that will help them adapt to new programs and become independent computer users for PC and MAC Computers. Basic training includes email, internet safety, and hardware and repair techniques.

Music Program

Music Iz Our World is a curriculum based musical composition program designed to promote youth freedom of expression through composing, playing instruments and recording.

Purpose of the program is designed to give our “at-risk” youth the confidence and skills in performance and production technology to take their passions to the next level. Our program is designed to develop the youth strong artistic identity through instruction, performance and ensembles. Through the curriculum the youth will become adept to musical production and recording in the unique demands facing the artist of the tomorrow.

Youth Sports League Program

iHoopz 4 Kidz is the athletic program that educates the essential qualities of sportsmanship, respect, integrity and team sport through playing physical activity.

Purpose of the program is to develop “at-risk” youth into elite athletes beginning from ages five (5) to seventeen (17) about professionalism in athletics on and off the field. The foundation is built on teaching the fundamentals of the game and dynamics behind higher play, officiating and game management.
