

BNHELP How to Use the Guide and Quiz

Word Bank

[illegible]

Select the Version.

The Questions are Identical.

Video Guide There are always 15 questions with the same "Look and Feel"- fill in the blank or forced decision so that students can keep up with the video.

- Word Bank for suggested answers.
- Students can fill them out before viewing and then correct the information while watching the video.
- Next to the question numbers there are triangles (Δ) that teachers may fill in indicating which questions are to be answered. This accommodation will limit the requirements for younger or special needs students.

Fill in the Blank

[illegible]

Reusable Quiz Print this on colored paper to reuse each year

Next to the question numbers there are triangles (Δ) that teachers can choose indicating which questions are to be answered.

- Use as many questions as you wish 10, 12, 15.
- Ideal for 'clicker' response systems.
- Every quiz has the same "Look and Feel"
- Free Quiz answer sheet at:
<http://www.StarMaterials.com/Documents/>

Individual Quiz Next to the question numbers there are

triangles (Δ) that teachers can choose indicating which questions are to be answered.

- When marking, have checkers put a "C" for correct and "X" for wrong in blanks next to the triangles (Δ) then count the "C"s for grade.
- Different classes can take different quizzes.
- Repeat or do-over quizzes can have different questions.
- Every quiz has the same "Look and Feel"
- Have students use ID Numbers only. Have them cross correct before returning the quiz to owner for names.

Answer Key The answer box lists suggested answers.

- Next to the answers are the times the material was presented in the video.
- Correct answer percentages are shown in the included table for a 10, 12, or 15 question quiz.
- Print the answer key on colored paper to find it quickly.
- A handy grading percentage key is provided at the top for easy grading.

- Ocean water is _____ water.
- The heat from the sun condenses / evaporates the water in the ocean leaving only salt behind.
- Ocean currents are caused by _____ and the amount of salt in the water.
- Warm air holds less / more heat than warm water.
- An ocean _____ is a river of water running through the ocean.
- Very salty water is _____ than water that is not as salty.
- Thermohaline currents are warm salty / cold fresh water ocean currents.
- Data marker buoys drift with ocean currents / temperatures.
- Fish depend on _____ water, also known as currents, for food.
- Rivers and lakes are not salty because the _____ in the water flow to the ocean.
- The amount of salt in the ocean has/has not changed.
- The flow of currents in the northern and southern hemispheres are _____.
- The most powerful ocean current, the Gulf Stream, is in the _____ Ocean.
- Sea level means that land is the same _____ as the sea.
- Earth is the only known planet with oceans that's why Earth is the only planet with _____.

Ocean Currents

While watching, complete this video guide.

Three things I knew
that were confirmed in
the video:

A- _____

B- _____

C- _____

Three things I didn't know
but I now know because I
watched the video.

A- _____

B- _____

C- _____

- ___ Δ 1. Ocean water is _____ water.
- ___ Δ 2. The heat from the sun condenses / evaporates the water in the ocean leaving only salt behind.
- ___ Δ 3. Ocean currents are caused by _____ and the amount of salt in the water.
- ___ Δ 4. Warm air holds less / more heat than warm water.
- ___ Δ 5. An ocean _____ is a river of water running through the ocean.
- ___ Δ 6. Very salty water is _____ than water that is not as salty.
- ___ Δ 7. Thermohaline currents are warm salty / cold fresh water ocean currents.
- ___ Δ 8. Data marker buoys drift with ocean currents / temperatures.
- ___ Δ 9. Fish depend on _____ water, also known as currents, for food.
- ___ Δ 10. Rivers and lakes are not salty because the _____ in the water flow to the ocean.
- ___ Δ 11. The amount of salt in the ocean has/has not changed.
- ___ Δ 12. The flow of currents in the northern and southern hemispheres are _____.
- ___ Δ 13. The most powerful ocean current, the Gulf Stream, is in the _____ Ocean.
- ___ Δ 14. Sea level means that land is the same _____ as the sea.
- ___ Δ 15. Earth is the only known planet with oceans that's why Earth is the only planet with _____.
