

SEDUM ADOLPHII
'GOLDEN SEDUM'

IDEAL LIGHT

Full sun

WINTER HARDINESS

Not frost tolerant - protect from freezing

PROPAGATION METHODS

Leaf and stem cuttings

WATER NEEDS

Water only when soil is dry

MATURE SIZE

1 foot tall | 2 feet wide

ADDITIONAL NOTES

This trailing succulent forms miniature golden rosettes, with leaves shaped like footballs. Its tips turn red when exposed to lots of sun. You can expect white blossoms in the Spring.

'Golden Sedum' is a fast-growing succulent, perfect for hanging baskets, green roofing, and rock gardens. It is deer resistant.
