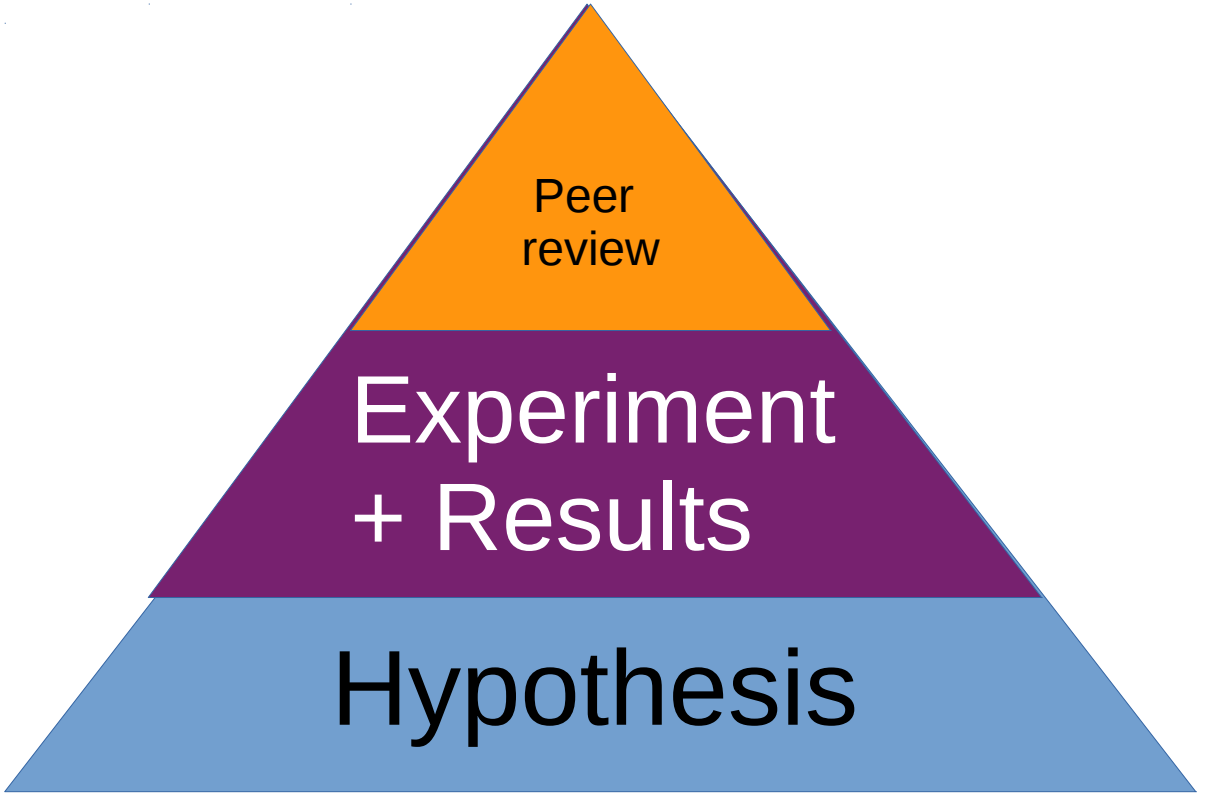
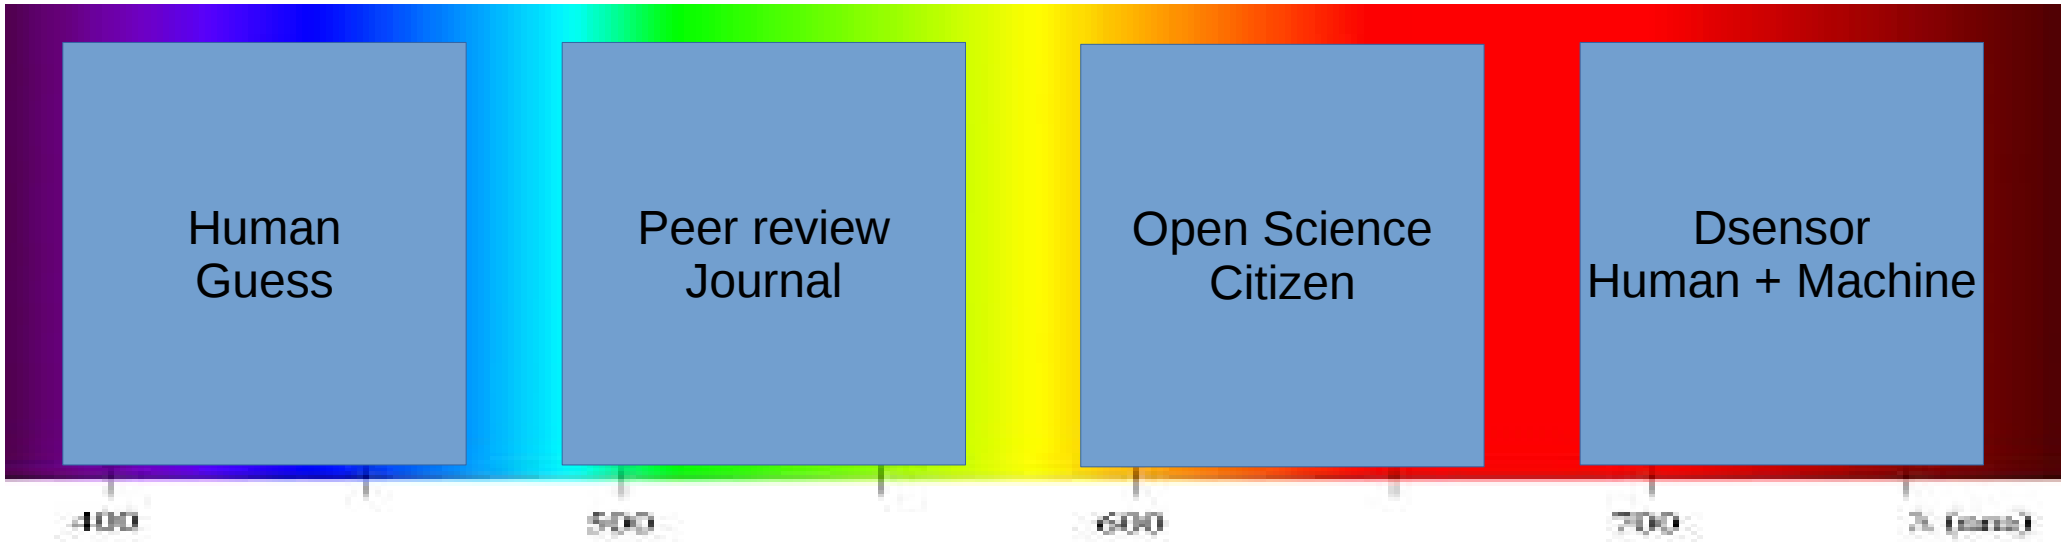
Science



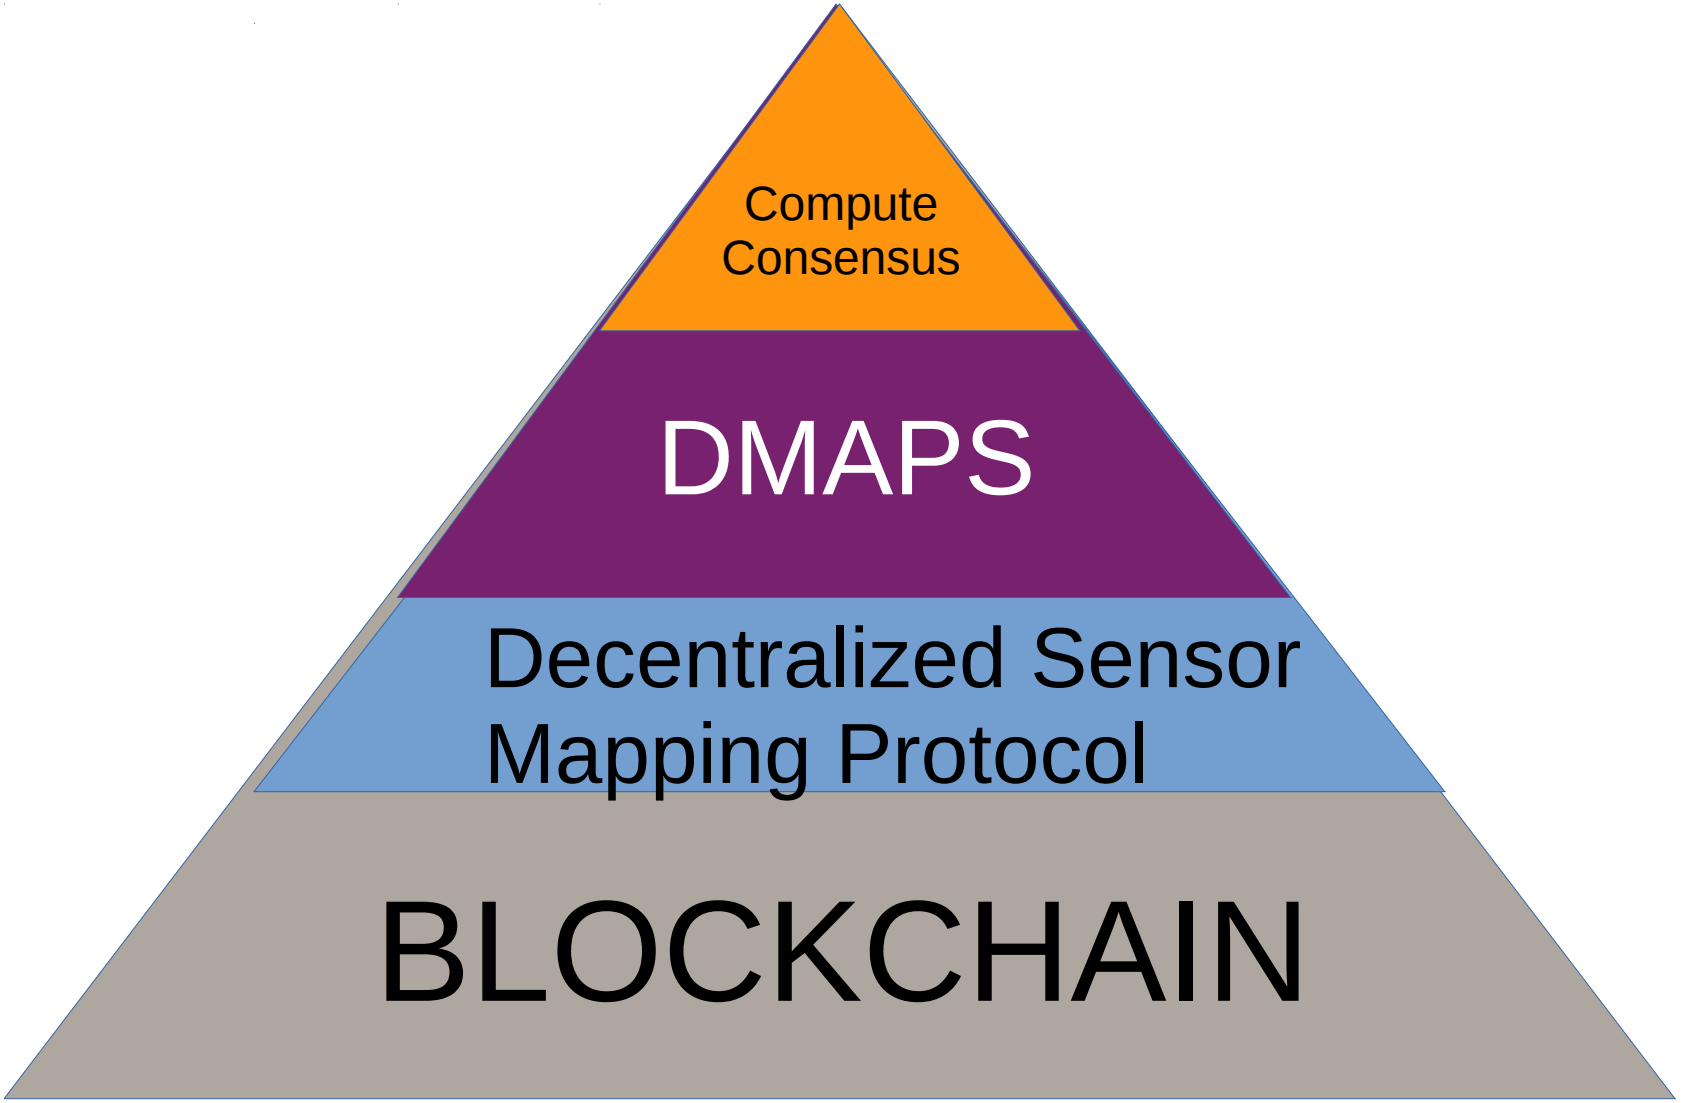
'too clean'

Future of Science?

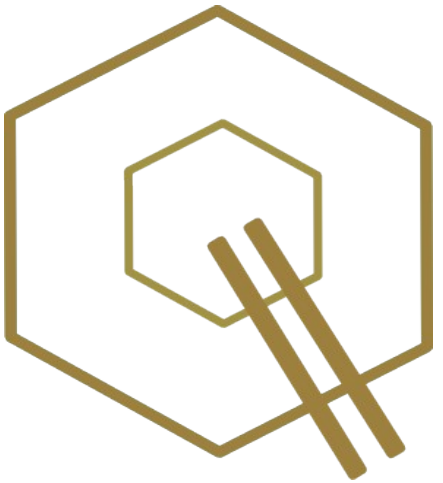


- Clean context —-> Myriad context
- Peer review —-> Computational consensus
- Clinical Trials —-> Computationally active

Peer to Peer Science



Decentralised Sensor Mapping Protocol

- Anyone free to put forward Dmaps (scientific computations-how world works)
- Random Sampling – Data Sampling
- 'Scoring' of prediction complexity context
- Blockchain 'Science Accounting'
- Best science available to all


- Thank you
