

CVS Classroom IT Survey Form V1

Please fill out this form to with as much information as possible to ensure a successful install.

Tech Name: _____

Location ID: _____

Date of Survey: _____

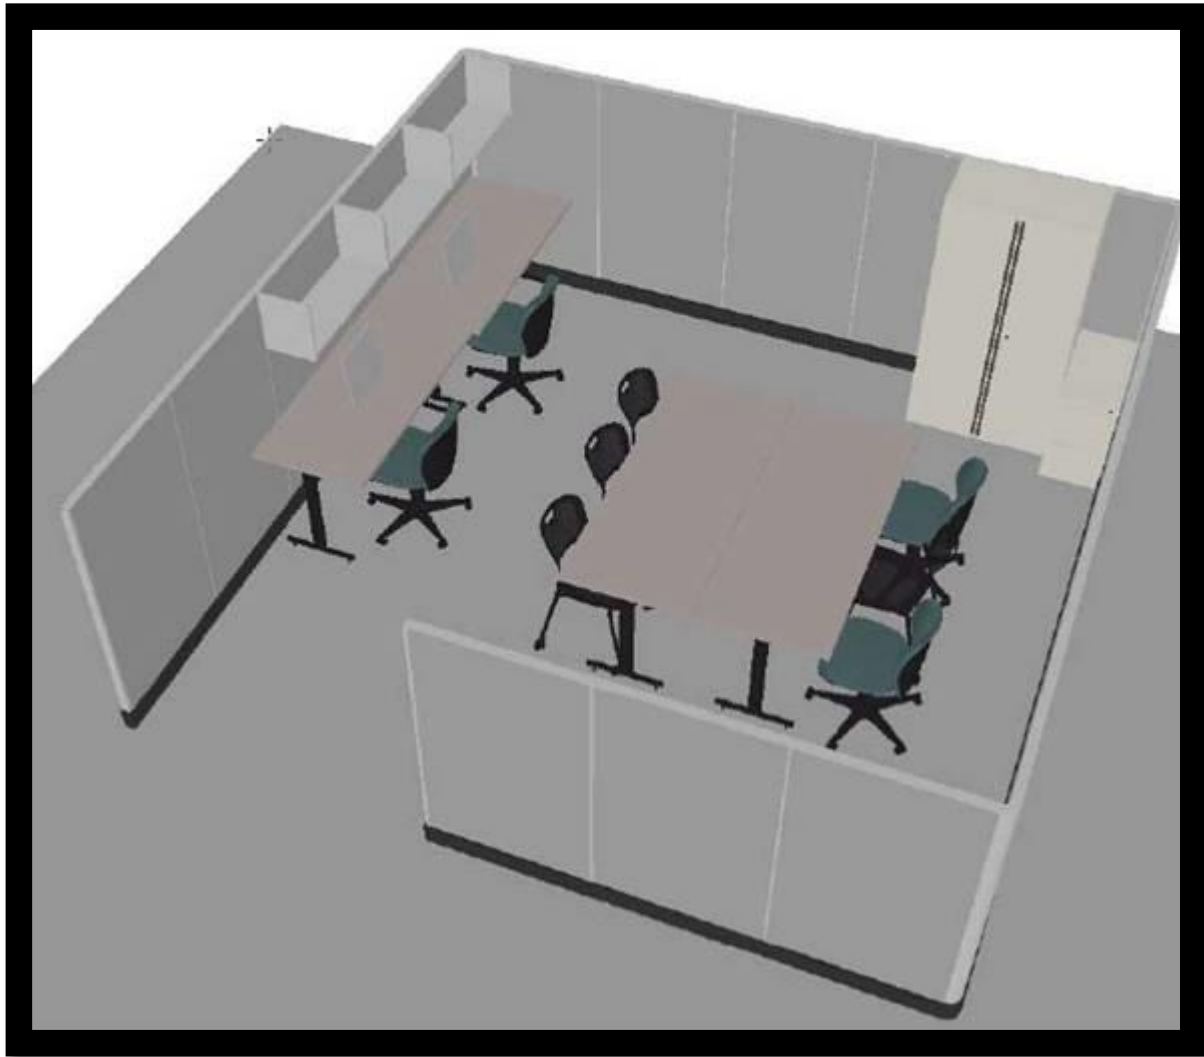

Section 1: Low Voltage Survey:

Question	Circle One		Notes/Comments:
1) Was cubicle space identified and staged for the Classroom IT installation?	YES	NO	If no, please ask manager when the store estimates completion of desk/cubicle space.
2) Were you able determine a cable path for the MIST AP installation? <i>(Cable will need to be ran from Classroom area to the Store's Data main network switch.)</i>	YES	NO	If yes, explain cable path footage requirement. If no, please call into NET for further assistance.
3) If Yes, will you need a second tech to assist with the cable run?	YES	NO	
4) If Yes, will you need a lift for any part of the cable run?	YES	NO	
5) If location has existing Extreme APs, were you able to locate them in the store? <i>(Existing APs can typically be found mounted on the ceiling tiles, near the beauty/cosmetics area, and or located in the back stock room area near the demark back board.)</i>	YES	NO	If yes, please list total QTY and applicable area. If no, please call into NET for further assistance.
6) Did you send in required pictures to dss@nettechnology.com ? a) Overview of the CVS Classroom b) Overview of tablet desk c) Overview of Main Data Rack d) Cable path for new AP e) Existing APs found onsite	YES	NO	Try to capture as many photos as you think is required.

Section 2: Electrical Survey:

Question	Circle One		Notes/Comments:
1) Will a QUAD outlet be required for the workstation desk?	YES	NO	If yes, explain estimated electrical extension footage and closet circuit.
2) Will a QUAD outlet be required for the (Center) Tablet Table?	YES	NO	If yes, explain estimated electrical extension footage and closet circuit.
3) If Yes to either question 1 & 2, will you need a power pole for any part of the electrical install?	YES	NO	If yes, list estimated QTY and footage of each required power pole.
4) Did you send in required pictures to dss@nettechnology.com ? a) Existing Electrical Outlet, if applicable b) Circuit Panel c) Proposed Power Pole location, if applicable	YES	NO	Try to capture as many photos as you think is required.

Typical Standard Layout Reference:

- 1) The terminals would be installed on the desk to the left, this is where electrical will need to be installed.
- 2) Tablets will be used on the table on the right, may require electrical as well so will need to survey for it in case.
