

Lesson 1 - Jumping Freely Around the Fretboard

Location of all root notes (A)

String 6	Fret 5 / 17
String 5	Fret 0 / 12
String 4	Fret 7
String 3	Fret 2 / 14
String 2	Fret 10
String 1	Fret 5 / 17

Practice Step 1

- Use just the 2 notes on SF1 to improvise over the included backing tracks.
- Go to every A, on every string, and place SF1 there.
- Don't worry about the limited material. Just do what you can with 2 notes, using rhythm to make your playing as musical as possible.

Practice Step 2

- Use SF1 and SF2 to improvise over the included backing tracks.
- Go to every A, on every string, and build the 2-string system using the 1st finger of SF1 there.
- Shift SF2 one fret up when you try this based on string 3.

Practice Step 3

- Use SF1, SF2, and SF3 to improvise over the included backing tracks.
- Go to every A, on every string, and place the system there.
- Shift up one fret when crossing into the top two strings.
