

HAWORTHIA COARCTATA

IDEAL LIGHT

Full sun to partial shade

WINTER HARDINESS

Not frost tolerant - protect from freezing

PROPAGATION METHODS

Offsets, seeds, and leaves

WATER NEEDS

Water only when soil is dry

MATURE SIZE

8 inches tall | 2 inches wide

ADDITIONAL NOTES

This slow-growing, clumping succulent has dark green leaves with white ribbing. The leaves turn pink to purple when stressed by sun or cold. Its long stems grow tall, with short, curved leaves.

Haworthia coarctata is a perfect addition to a rock garden. It adds excellent “filler” to a succulent arrangement. Watch for green flowers in the summer.
