## Property Description

For sale for the first time in 40 years, this substantial and unusual three storey property has changed little since it was built in the late 19th Century. The ground floor comprises a showroom, offices and ancillary storage while the first and second floors are used for storage purposes. A goods lift serves all floors.

Large windows at the front and back of the first and second floors provide good levels of natural light which carries into the middle of the space as a result of the excellent c 3.4m floor to ceiling heights at these levels.

At second floor level, four original Victorian roof lanterns provide abundant daylight and create an impressive sense of space which is amplified by the absence of any columns.

Given its wide-ranging qualities the property will appeal to a variety of users e.g. education, medical, art / design studio, leisure, hotel, place of worship, and office.

The property also has potential for residential conversion, scope to construct an additional storey and comprehensive redevelopment. Drawings for a five storey new build scheme (stpp) are available to download from our website.

Prospective purchasers are advised to seek planning advice on their intended use prior to making a proposal.

Floor plans for the existing building are also available to download.
