"What I love most about Timberdoodle is the variety of items available for each subject and the ability to customize each kit.

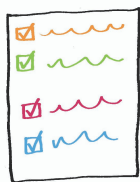

The catalog is so helpful and I look forward to it arriving in the mail each year!

I've been pleasantly surprised at how much curriculum I am able to save to use for younger children.

The kits are a great value and we plan to continue ordering for years to come."

HISTORY/ GEOGRAPHY

Historical Conquest

Two Free Starter Decks For Your Friends

Historical Conquest™ is a unique and exciting card game in which players explore to find new land and defend them with influential figures from history. Attack your opponent to take their Land or work together against a common foe. Increase the Morale of your people until you achieve victory through World Domination or World Peace.

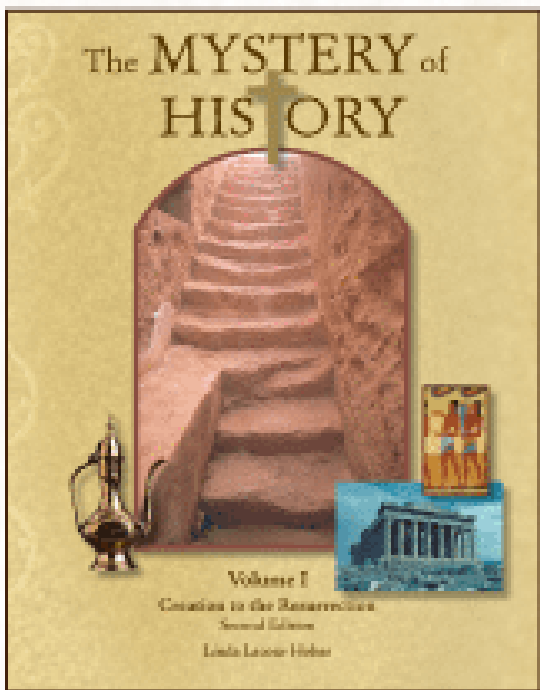

Historical Conquest is proven to get kids excited about History once again. A brief history of each topic (person, place, event, document, etc) is found on the card so the player is learning just by playing the game.

While supplies last, we are offering two free decks of Historical Conquest 1.0 cards for your friends to try and play with you. They are compatible with the new cards you have just purchased but are from the previous print and so cannot be sold. If you have already purchased the game, please do not take this opportunity away from others to share with their friends by ordering these. This is limited to two decks per family. Thank you for spreading the word about Historical Conquest.
