# 8.5.1.4 Verification after shutdown

SubMastery

## 8.5.1.4  Verification after shutdown

**The organization shall define and implement the necessary actions to ensure product compliance with requirements after a planned or unplanned production shutdown period.**

# Changes

This is a **NEW** requirement

**Documented Process** - Not Mentioned

**Documented Information** - Not Mentioned

SubMastery

# Explanation

Define a new requirement for verification after shutdown as after a shutdown period, there may be some gaps like calibration of equipments got overdue during shutdown, PM of machines not done timely, skilled operators availability, etc.

SubMastery

# Activity

**Step 1** - Make a detail work instruction for activities to be carried out after shutdown (define shutdown period e.g 48 hrs, 72 hrs)

**Step 2** - Ensure the responsible person aware about the activities to be carried out after shutdown.
