

ALOE HAWORTHIOIDES
“HAWORTHIA-LEAVED ALOE”

IDEAL LIGHT

Full sun to partial shade

WINTER HARDINESS

Not frost tolerant - protect from freezing

PROPAGATION METHODS

Offsets

WATER NEEDS

Water only when soil is dry

MATURE SIZE

4 inches tall | 3 inches wide

ADDITIONAL NOTES

This sneaky Aloe gets its name from the way its leaves mimic a Haworthia. Unlike some Aloes, this one is particularly fast growing. The dark green leaves have white spots on them, and grow tiny white “hairs” on the edges. The leaves are wide at the bottom and taper into a sharper point at the top.
