The Meatball Shop: Have you been living your entire life eating just one type of meatball? That's not living, that's sleepwalking! Thankfully, the Meatball Shop is here to wake you up with five types of meatballs, four sauces, and every mouth delivery option you can imagine. They've got meatballs made with house-ground meats like spicy pork, classic beef, chicken, salmon and even a vegetarian option with lentils and walnuts. It's \$3 for a meatball slider and \$9 for a hero, or \$7 for "naked" balls, served with sauce and foccacia. Sides like polenta or risotto are \$3-\$4, plus there's root beer on tap, a carefully paired wine list and a build-your-own ice cream sandwich option for dessert. They're open from noon-4am, and meatball delivery starts in March.
