Agenda

- The state of play
- Browser experience
- Office experience
- Other must have apps
- Conclusions

Windows is still the premier experience

- But that is changing fast
- Microsoft is aiming to be everywhere consumers are.
- This typically means more on devices than desktops.
- Hardware is largely becoming irrelevant
- Need to deal with hybrid environment of different devices and platforms

Consistent experience

- Microsoft provides consistent experience across platforms and browsers.
- Moving away from proprietary solutions like Silverlight towards standards like HTML 5

iPhone 'Pro'

Browser experience

- Microsoft provides consistent experience across platforms.
- Office 365 web portal experience identical
- File uploads identical
- Drag and drop identical
- Open with Explorer not supported
- Connect to Outlook not supported
