# This Course

Integrating SignalR with Vue

Create a Vue Library

Integrating with a Vue Plugin

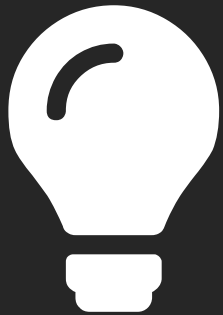

Integrating with Vuex

Calling into SignalR

# What This Course Isn't

Not an Introduction to SignalR

You should be familiar with SignalR

Our SignalR micro-course is preferred

We're focusing on using SignalR in Vue

Client-side code almost exclusively

# Demo

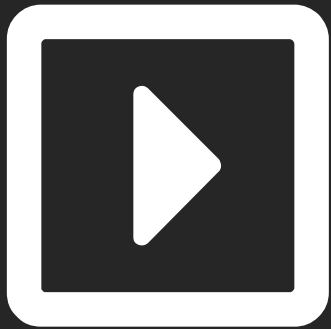

## Getting the Starting Project

# Demo

## Creating a Client

# Demo

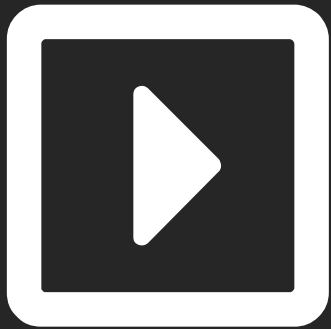

## Integrating with Call List

# Demo

## Integrating as a Plugin

# Demo

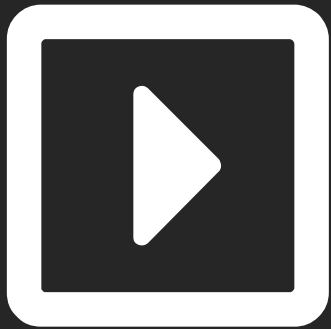

## Integrating with Vuex

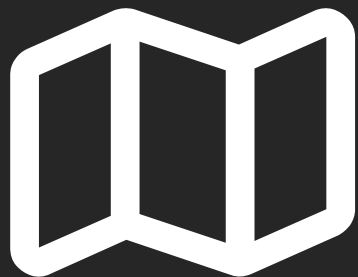

# Demo

## Calling from the Client

# Summary

## Integrating SignalR with Vue

Can integrate SignalR into Vue projects

Can integrate deeply or shallowly

Supports notifications from server or client
