Walgreen's: 2021 - HIGI Data Cable Removal - 43110

**TRIP INFORMATION**

Arrival Date	Arrival Time	Time Zone	Trip Description	# Of Techs
07/19/2021	08:00 AM	EDT	Cable De-install	1

**TECHNICAL NOTES:**

1 tech needed to remove the HIGI Blood Pressure Machine's network data cable.

1. Locate the HIGI machine in the pharmacy waiting area.

2. Remove the patch cord and tone the line back to the network cabinet, located in the office or stock room. The cable should be on patch panel 1, port 55.

3. Remove and discard the patch cord connecting to the switch. Record the switch port and patch panel port on your D&amp;A form.

4. Remove the jack and cut the cable, taking care not to cut any other lines. Replace the black retainer clip into the patch panel.

5. Return to the HIGI machine, cut the jack out and pull the cable up into the ceiling, cutting off the line above the grid. Be careful not to damage the ceiling tile.

6. Install a VFT supplied white blank faceplate over the hole.

7. Collect deliverables and log out.

Trips: All work will be completed in (1) trips by (1) Technician

\* Tools needed: Laptop w/aircard, Label Maker, Digital Camera, 4 Pair RJ45 Tester, 110/66 Punch Tool, Ladders (6', 10' &amp; 12').
