

THE SPIRITPRENEUR GURU ACCELERATOR – WELCOME! TRIGGERING TERMS

Yay. Hello, my beautiful, beautiful goddess guru. Yes. I said we had to be going because here you are. You did it. You did it. You did it. You said yes to yourself and welcome to the Spiritpreneur Accelerator Program. Hold your head like there is a crown on top of it because things will never be the same. Why? Because you said yes to yourself, you said yes to your personal evolution, you said yes to your calling, and you said yes to the knowingness, the deep knowingness, that there is someone, many someones, who are waiting for you to stop playing small, to step up, step into your power and your greatness, and bring all of your magic and your mojo to the table. Yes. Okay.

This is not about having a seat at the table. What? This is about building your own, and here is how we're going to do it. Just giving you just a quick recap of what is going to be coming up in your Spiritpreneur Accelerator journey. Let's start by just taking a breath. Yes. Because I can assure you that I know from years of working with amazing women like you to personal experience that the moment that you say yes to you, here come the gremlins, the inner voice, the family tragedies, the things, all of the reasons why you should not be doing this right now. You are exactly where you need to be. You are in the exact right place right now.

This is the time. This is the place, and you are the woman. Because you know that those gremlins will be coming, as sure as my name is Abiola Wendy Abrams, those gremlins, that inner voice, that inner bully will be calling on you to say, "Is this the time for you to be doing this because such and such needs whatever? You can't do this. Those other women, don't you see all that they have going on? You should be further along." No. That is not what we are doing. We are not playing that game. Not on my watch. All right? I believe in you Now I need you to believe in you and there we go. Let's do this. Ready? All right.

Here are the nine projects that we are going to be doing during your 90 days of Spiritpreneur Guru Acceleration. Yes. Okay. Here we go. No. No. That's back to slide one. We don't want to go there. We want to come all the way back down.

All right. While I fast forward through the slides, I'm going to remind you of what it is to be a guru. Okay? To be a guru, it's very triggering language and I use it on purpose because of that because a lot of people say, "But I'm not a guru. I don't want to be an expert. I don't want to be an influencer." Imposter syndrome rears its ugly head. I intentionally use that magic to say, "Yes. Everybody is a guru of something."

My mother is the guru of Guyanese motherhood and making sure their children are safe and loved. Everybody is the guru of something. Yes, you are a guru. Just step into your guru hat. Put it on and wear it. All right. Here we go. Nine projects, 12 weeks. Here is what they look like. All right? Your Spiritpreneur Guru Accelerator project number one is brand big or go home. What this means is your message is a ministry, my love. You need a platform to get your message out to the world. We're going to build you a brand worthy of you being recognized expert. This is the answer for everybody's doing the exact same thing or they took my business and all of that stuff.

No. We will create your own lane. When you're in your own lane, there is no competition. Project number two is you soulmate clients. Your hive five tribe. If you're a guru, this means that you have a message that you urgently need to get out to your world. That's it. An audience is a group of people who are temporarily in front of you. That's not what we want. You need a tribe. Not just any tribute, but your very own high five tribe. All right? Your soulmate clients. That's project two. Project three, your guru star power. Yes. Look at you being willing to be seen and heard. We're going to make your message famous starring you.

If you want to be a guru, an expert, an influencer in your own lane, it's time for you to be seen. You must be seen and heard to launch a movement. Now back in the days you probably start broadcasting from a street corner on a soap box, right? Some places had town criers. The British are coming. The British are coming. Today we live in a different world, so we're going to raise your profile, amplify your message and your guru star power. Yes. Project number four, your signature guru offering. You have a calling and a message. You were given this calling for a reason. Let's pack up your magic, your mojo, and your intellectual property.

You have a solution to someone's problems and she needs a way to invest in your method to solve her issues. This is where your products, your programs, and your services come in. Project number five, mission to movement. "If you build it, they will come," they told us. If you build it, you just built it. If you are ready to turn your mission into a movement, we got to do something else. Somewhere out there your tribe is waiting for you to step up and be the leader you were born to be. Movements big and small is how we make shift happen. Project number six, your passive income project. Are you ready to stop trading hours for dollars?

If your business doesn't make money unless you are present, you've only created another job for yourself. You can either work for your business or make your business work for you. A passive income project allows you to build the path for your soulmate tribe to your signature guru offering. Project number seven, spiritual selling, money and abundance. Stop chasing money, chasing business, chasing clients. Your soulmate clients hate being sold to as much as you hate selling. There's a better way than shouting, "Buy my stuff. Buy my stuff. Buy my stuff." Here's the thing, we all have money blocks whether you are wealthy, very poor or somewhere in between.

Let's address this. Let's address the money stuff because it is the key of course to you not feeling like your abundance is something to be ashamed of or not feeling like you can't offer your goods because money is the root of all evil. All right? Let's get all of that cleared up, shall we? Yes, we shall. All right. Project number eight, ready, set, launch on fire. Fire. Keeping your ideas in your notebook serves nobody. We need to get your stuff out into the world. It is time to break out of your comfort zone. Launching is the bridge between your programs, products and services and your soulmate clients who are waiting for what you have.

Project number nine, last but most certainly not least, the Spiritpreneur Guru Accelerator project nine is your guru mindset. Yes. We may have been moving faster than your perception of yourself can keep up with. That's what happens during acceleration. Usually during this journey self-sabotage sets in. We will not let that happen. You are powerful beyond measure. You are fearlessly, fearfully and wonderfully made. Made for this. All right? Let's up level who you think you are and what you think that you are capable of. All right? You got this. You so got this. Yes. All right. Who's ready? Are you ready? I think you are. Let's do this. Come on, guys. You got it. You got it. You got it.
