Scheduling

1 billable technician required Arrival Time: 11/4/2020 7:00 PM

Scope of Work

VC 2.0 Install SOW - Night 2 work order

Task 1 – Site Arrival

- Check in with store manager and the Walmart Store Planner, - Call NET to Login 608.827.7949, ext 1116, - Locate Vision Center

Ask if Electrical Medical Record Management (EMR) systems are moving on the sales floor. It is typically cabled to the Optical doctor spaces and then a home run to the server; sometimes housed in the GM closet.

Task 2 – Return Trip to Install cabling and run and additional if needed

- Assist Store Planner if needed to move the equipment to the new Vision Center Desks and Fixtures, - Verify with NET support that all devices ping, - Verify with Store Planner that all equipment is working, - Take the follow up pictures

Overview of the new Vision Center with all equipment installed and on. -- Mounted and labeled surface mount boxes -- Close up of all phones showing the correct extension number

Trip 2/3

The second/third trip to site will be on night twelve before the construction completion date for the VC 2.0 project you are working with.

Scope of Work

During these visits for the second trip, your team will be expected to have the VC sales floor ready for the store planner to set up all

devices as per the print for your site. This work will include, but is not limited to, the following:

1. Install new cables to new device locations. You may reuse cables if they will reach to the device location and pass level 2 tests
2. Terminate, faceplate, label and test all drops on the VC sales floor
3. Install cable drops for the VC menu board and record switch and port information VCTV-01,

this drops will be present in all VC

sets, please validate the conduit pathway with the construction team onsite

4. Escalate any known issues to your help desk during trip 2

5. Review any locations that previously had data and make sure locations have blank plates or are
dressed in with an appropriate

cover, validate with construction team there are no open locations for low voltage.

6. Move the following items for a reception area to the perm location and make sure all have
connectivity. Work with the

store planner to validate all items are online and operational prior to leaving site. This will be
completed starting on night 12

a. 1 phone cable V-193

b. 1 PC cable D-VC01

c. 1 fax cable V-964

d. 1 Reg cable REG98

e. 1 Printer Cable D-VC05

7. Make sure all cables are as tidy as can be and meet code/standards.

8. Walk through the VC sales floor with the store planner to validate all low voltage items have
been completed on night three.

9. Receive sign off by the store planner and follow up with your help desk. Provide switch and
port information for the VC

menu boards; and the test results for all cables

Deliverables and Log Out

- Complete final sign off sheet with the Store Planner

- Upon completion of all of the above steps send in the following pictures to receiving NET's
DSS system at DSS@nettechnology.com Using your Work Order ID in square brackets

[XXXXXX]
