IDEAL LIGHT

Partial sun to partial shade

WINTER HARDINESS

Not frost tolerant - protect from freezing

PROPAGATION METHODS

Leaves

WATER NEEDS

Water only when soil is dry

MATURE SIZE

6 inches tall | 6 inches wide

ADDITIONAL NOTES

This dark green succulent has red spots on its leaves. The leaves can be brown, green, or red depending on the amount of sunlight it receives.

This succulent is very slow-growing, and therefore doesn't bloom often. Watch for reddish-orange flowers on a tall stem.
