Water only when soil is dry

MATURE SIZE

8 feet tall | 5 feet wide

ADDITIONAL NOTES

This shrubby succulent has bright red, pink, orange or yellow stems. It adds thriller to succulent arrangements. It grows well in container gardens, but due to its toxicity, should not be planted where there is a lot of foot traffic.

‘Sticks on Fire’ is perfect for container gardens. It grows quickly, so it may need to be repotted more often than other succulents. It will display the most color during winter months.
