

HAWORTHIA CONCOLOR

## IDEAL LIGHT

Partial sun to partial shade

## WINTER HARDINESS

Not frost tolerant - protect from freezing

## PROPAGATION METHODS

Offsets and seed

## WATER NEEDS

Water only when soil is dry

## MATURE SIZE

6 inches tall

## ADDITIONAL NOTES

This slow-growing succulent has pointed bright green leaves with raised white spots.

Haworthia concolor is a great succulent for beginners. It is low-maintenance, and thrives on neglect. Great for growing indoors at home or in an office where it can receive enough light.

Watch for white blossoms in the Fall or Spring.
