Feature Glass

Krug Grande Cuvée, Brut, NV, Reims, FR 65

Krug Grande Cuvée is the archetype of craftsmanship and savoir faire. A blend of more than 120 wines from ten or more different vintages. Its exceptional finesse is the result of a stay of at least another six years in cellars. Around twenty years are needed to craft each bottle of Krug Grande Cuvée. The first prestige Champagne re-created Each year beyond the very notion of vintage.

*Vintages and availability are subject to change without notice.

The Diversity of the Napa Valley AVA

Napa Valley stands for wines of the highest quality, cultivated with excellence in one of the world's most extraordinary places. The Napa Valley was California's first AVA, or American Viticultural Area, recognized by the U.S. government in 1981. An AVA is a legally designated grape growing area possessing distinguishable characteristics such as climate, terrain, soils and cultural and historic significance. In order for a wine to be labeled with a specific AVA, at least 85% of the grapes must be sourced from that AVA.

The Napa Valley produces just 4% of California's and .04% of the world's winegrape harvest. It has a dry Mediterranean climate shared with only 2% of the world's surface, which is ideal for producing consistent wines from vintage to vintage. Napa Valley has 16 nested AVAs, each possessing distinct attributes. The sheer number of AVAs within Napa Valley speaks to the region's diversity, allowing winemakers to produce a wide range of wines in an array of styles.

LOS CARNEROS

Climate: Cool, with marine winds from the San Pablo Bay as well as the Petaluma Gap to the west; high temperatures rarely exceed 80° (27°C).

Elevation: Sea level-700 feet (213 m)

Principal varieties: Chardonnay, Pinot Noir and Merlot

COOMBSVILLE

Climate: Weather is moderated by its proximity to the San Pablo Bay. Daily average high temperatures can be as much as 10 degrees cooler during the hot months than most other AVAs, and heat spikes tend to be less severe.

Elevation: 100-1000 feet (30-305 m)

Principal varieties: Cabernet Sauvignon, Merlot, Chardonnay, Syrah and Pinot Noir

WILD HORSE VALLEY

Climate: Due to elevation and proximity to San Pablo Bay, it is the coolest of all the Napa AVAs. The air mass that passes over Carneros cools another 10 degrees by the time it rises to the AVA.

Elevation: 850-2130 feet (259-650 m)

Principal varieties: Pinot Noir and Chardonnay

MOUNT VEEDER

Climate: Cool to moderate, with most vineyards above the fog line, meaning warmer nights and cooler days than on the valley floor; typical summer highs are 85° (29°C).

Elevation: 500-2600 feet (152-792 m)

Principal varieties: Cabernet Sauvignon, Merlot, Zinfandel and Chardonnay

OAK KNOLL DISTRICT OF NAPA VALLEY

Climate: Moderate to cool, with marine air and fog often remaining until late morning; afternoon breezes maintain slightly cooler temperatures than in the upper valley; summer temperatures may reach low 90s° (33°C) and drop to around 50° (10°C) at night.

Elevation: Sea level-800 feet (244 m)

Principal varieties: Cabernet Sauvignon, Chardonnay, Merlot, Sauvignon Blanc and Riesling

YOUNTVILLE

Climate: Moderate, with marine influence and fog contributing to cool summer mornings; the marine breeze keeps afternoons more comfortable than farther up valley; summer temperatures may reach the low 90s° (33°C), with nighttime temperatures dropping into the mid-50s° (13°C).

Elevation: 20-200 feet (6-61 m)

Principal varieties: Cabernet Sauvignon and Merlot

STAGS LEAP DISTRICT

Climate: Moderately warm with afternoon marine winds cooling the warmer air radiating off the bare rocks of the surrounding hillsides; summer temperatures can reach 100°, but more regularly are in mid-90s° (34-36°C).

Elevation: Sea level-400 feet (122 m)

Principal varieties: Cabernet Sauvignon and Merlot

ATLAS PEAK

Climate: Cool, mountain influenced with temperatures about 10-15° cooler than the valley floor in summer; above the fog line, there is low day-to-night temperature range, with summer temperatures rarely rising above 90° (32°C).

Elevation: 760-2600 feet (232-792 m)

Principal varieties: Cabernet Sauvignon and Chardonnay

OAKVILLE

Climate: Moderately warm, with temperatures commonly in the mid-90s° (35°C) in summer, but affected by night and early morning fog creating a day-to-night temperature fluctuation. The east side hills receive warm afternoon sun while the west side cools as the sun sets behind the Mayacamas range.

Elevation: 130-1000 feet (40-305 m)

Principal varieties: Cabernet Sauvignon, Merlot, Cabernet Franc and Sauvignon Blanc

RUTHERFORD

Climate: Moderately warm, marginally influenced by early morning fog; usual summer peak temperatures are in the mid-90° range (34 - 36°C), averaging a bit warmer and higher base elevation than Oakville and Stags Leap District.

Elevation: 155-500 feet (47-152 m)

Principal varieties: Cabernet Sauvignon, Sauvignon Blanc, Merlot and Cabernet Franc

ST. HELENA

Climate: Warm, due to greater protection from western hills, with less fog and wind; the narrowing of the valley floor provides more heat reflection off the hillsides; summer temperatures often peak in the mid-to-high 90s° range (34-37°C).

Elevation: 200-475 feet (61-145 m)

Principal varieties: Cabernet Sauvignon, Cabernet Franc, Merlot, Sauvignon Blanc, Syrah, Zinfandel and Viognier

SPRING MOUNTAIN DISTRICT

Climate: Cool to moderate depending on elevation and aspect. Most vineyards sit above the fog-line, providing warmer nights and cooler days than the valley floor. Typical mid-summer high temperatures reach 85° (29°C).

Elevation: 600-2600 feet (183-792 m)

Principal varieties: Cabernet Sauvignon, Merlot, Cabernet Franc, Chardonnay and Zinfandel

CHILES VALLEY DISTRICT

Climate: Summer temperatures peak in the mid-80s° (29°C), but due to higher elevation and evening fog, drop to below 50° (10°C).

Elevation: 600-1200 feet (182-366 m)

Principal varieties: Cabernet Sauvignon, Merlot, Cabernet Franc and Zinfandel

HOWELL MOUNTAIN

Climate: Located above the fog line on the eastern side of the valley, the AVA is warmer and drier than other AVAs with more hours of sunshine and little-to-no marine influence.

Elevation: 1400-2600 feet (427-792 m)

Principal varieties: Cabernet Sauvignon, Merlot, Zinfandel and Viognier

DIAMOND MOUNTAIN DISTRICT

Climate: Moderately warm temperatures with less fluctuation than the north Napa Valley floor; temperatures in the summer range from 50-90° (10-32°C).

Elevation: 400-2200 feet (122-671 m)

Principal varieties: Cabernet Sauvignon and Cabernet Franc

CALISTOGA

Climate: Daytime summer temperatures may peak above 100° (38°C) and fall to low 40s° (6°C) at night, due to cool afternoon and evening breezes drawn in through the Chalk Hill Gap from the Pacific.

Elevation: 300-1200 feet (91-366 m)

Principal varieties: Cabernet Sauvignon, Zinfandel, Syrah and Petite Sirah

OPUS ONE

A NAPA VALLEY
RED WINE

PRODUCED AND
BOTTLED BY

Robert Mondavi
ROBERT MONDAVI

Baron Philippe
BARON PHILIPPE DE ROTHSCHILD

Of the great European wine families, the Rothschilds are perhaps the best known. And Baron Philippe de Rothschild is perhaps the best known of this great family. At the age of 20, Baron Philippe took on the management of Château Mouton

ROTHSCHILD FROM HIS FATHER BARON HENRI. PHILIPPE'S VISION CHANGED THE WORLD OF wine: he invented Château bottling, commissioned great artists to illustrate his wine labels and, in partnership with Robert Mondavi in 1979, created Opus One.

Among great New World wine pioneers, Robert Mondavi is an international icon. Bringing a passion for excellence to everything he did, Robert Mondavi led a renaissance in California fine wine for over six decades. Among other accomplishments, he introduced temperature-controlled fermentation, French oak barrel aging, and high-density viticulture to a fledgling American wine industry. But life was not only wine for Robert Mondavi: he broadened the American cultural palate by marrying fine wine to food, music, and the arts. One of few Americans to have received the French medal of the Legion of Honor, Robert Mondavi showed extraordinary vision as co-founder of Opus One.

California Cabernet Sauvignon

The Shafer approach to vineyard cultivation and winemaking can be summed UP IN THE TITLE OF THE OLD STEPHEN STILLS SONG, "LOVE THE ONE YOU'RE WITH."

When they started making wine in the late 1970s, none of them had the opportunity to visit other great viticultural regions of the world and learn how wine was made. The team of John Shafer, Doug Shafer, and Elias Fernandez WERE COMPLETELY ABSORBED (THEY MIGHT SAY "OVERWHELMED") IN LEARNING HOW TO grow fruit and make wine from their little plot of earth in Napa Valley.

By the late 1980s after more than a decade focused solely on this site, they knew their soils, climate, fruit, and had developed approaches to making the best tasting wine that their vineyards could deliver. Thanks to warm, moderate climate, with abundant sunlight during midday, chilly evenings, and foggy early mornings. The vineyards yield fruit that offers concentrated, lush aromas and FLAVORS. THEIR LOVE-THE-ONE-YOU'RE-WITH APPROACH MEANS THAT THESE VINEYARDS speak for themselves.

2233	Shafer, <i>Hillside Select</i> , 2011, Stags Leap District	600
