

PACHYVERIA GLAUCA
'LITTLE JEWEL'

IDEAL LIGHT

Full sun to partial shade

WINTER HARDINESS

Not frost tolerant - protect from freezing

PROPAGATION METHODS

Leaves and stem cuttings

WATER NEEDS

Water only when soil is dry

MATURE SIZE

6 inches tall | 6 inches wide

ADDITIONAL NOTES

This star-shaped succulent's leaves form a spiky rosette resembling a jewel. The blue-gray leaves have red tips that turn a deep maroon when exposed to full sun. Peach-colored flowers bloom in the winter.

Pachyveria are a hybrid of Pachyphytum and Echeveria. 'Little Jewel' is a great succulent for beginners, as it is able to tolerate a variety of growing conditions.
