Scheduling

1 billable technician required Arrival Time: 6/11/2021 7:45 AM

Scope of Work

CVS - Broadband Router 2021 - TARGET SITE- HARD ETA

NET techs will LOG IN/LOG OUT LIVE by calling (608) 827-2270. DO NOT AUTO LOG IN*

IMMEDIATELY CALL CVS_ROC 888-401-4601 (from a STORE PHONE), Option 1.1 for Broadband **In order to ensure accurate onsite times, tech will need to log in with NET Support and then immediately log in with CVS ROC and vice versa. If there is more than 15min time discrepancy between the NET and CVS onsite time, we will use the login/out times provided by ROC.

ROC will provide you with a PIN that you will need to share with the Target manager for access to complete the work. Once PIN is received, tech can proceed to the main store entrance. The store should be expecting the visit. There should also be a bell on the outside of the building to notify the store personnel that someone needs entrance.

If the CVS store personnel question the validity of this visit, the manager can call 888-401-4601, Option 1.1 (CVS-ROC) or can reference this CVS Help Desk ticket number: TBD (JUNE 2021)- If number is needed please call NET

PPE requirement: Use of Face Masks or Cloth Face Covers

*Use Redbook for reference on Modem connections

1. After logging in with ROC, work with Target manager to gain access into the TARGET control room.
2. Once inside the control room, locate the Broadband modem- If not found or located any where else - let the ROC know
 - a. Label modem "CVS Retail BB" and label the Modem Power Cord "Modem Power" Labels should be affixed to the cables approximately 12-inches from the Modem side
 - b. Take required photos of Modem
3. Locate and utilize any available red 500 series jack (if cable test pass) and make the connection to the modem. 500 series jacks run to CVS data rack
 - a. Label modem cable "CVS Broadband Cable"
 - b. Take photo of jack/cable
4. Tech will need to wait onsite until the CVS Rx opens and staff is onsite (May be up to 1-2 hours)
5. Once tech has access to CVS data rack, tech should connect the 500 series jack used in control room to port G0/2 on the Cisco 2911 Router as per CVS Redbook
6. Reboot the modem.
7. Take other required photos:
 - a. Close-up of G0/2 on the Cisco 2911 Router (with patch cord connected)
