HOW TO GET ACCESS TO THE HIGHLANDS

The Highlands Ability Battery (HAB) is an online assessment which enables you to look at your whole-life picture and pinpoint your God-given abilities and personal style as it pertains to interacting with others. The battery reveals how you problem solve, where you get your energy from, and how you connect with others, providing you with a framework for approaching relationships, educational studies, and career pursuits.

The HAB is conducted through a website provided by the Highlands Company. It will take you 3 hours to complete. It is divided into 19 timed work-sample segments, which can be completed in one sitting or spaced out according to your time availability. You will need:

1. computer with a good internet connection
2. headphones to plug into your computer
