Scheduling

2 billable technician required Arrival Time: 10/26/2020 8:00 PM

Scope of Work

ISD PICKUP 2019: Tower Data Install Trip

Log in on the Mobile App/link or with NET Tech Support 608-827-7949 x1116.

***** Orb Style: INTEGRATED *****

These pickup tower projects are designed to be COMPLETED IN 1 TRIP, prior to the tower install start date. We will stage the tower cable in the ceiling, drop the locker cable down the power pole, and install the MPT to the ceiling with HDMI cable. The Tower installation crew will come in behind us and make the final connections on the tower and locker cables and connect the MPT HDMI cable to the screen in their tower, so it is VERY IMPORTANT that all cables are terminated and clearly labeled according to the labeling scheme below. Techs will need to work with NET support to get known working ping results on Locker/Tower cables and hopefully ping the MPT itself.

If EQ is located and will NOT be installed, please take it to the UPC room. NET support needs to be updated on the final location and a photo submitted to DSS.

See PICKUP TOWER - Data Scope Details - Integrated ORB and PICKUP TOWER -MPT Install with any questions.

***** ORB Style: INTEGRATED *****

Requires 2 Data Techs (could be 1 Data Tech and 1 Spotter).
Check in onsite with an MOD and the GC or Store planner (If there is one onsite).
Techs must log out with NET Tech Support 608.827.7949 x1116.

Mpt, bracket, 15' hdmi cable Tracking #
