BRIEF STATEMENT OF WORK & COMMENTS

2021 - Target DSD ELO Tablet (no deinstall) - 43248

TRIP INFORMATION

Arrival Date	Arrival Time	Time Zone	Trip Description	# Of Techs
08/31/2021	09:00 AM	EDT	DSD Installation Trip 1	2

TECHNICAL NOTES:

Direct Store Delivery (DSD): Tech will be installing [1] DSD kiosk and [1] new cable run from newly installed DSD device to nearest IDF or MDF. The store will hang a placard in the backroom where the DSD Device should be installed. Additional details will be included in install guide.

Install Expectations:

Locate Placard for install location

Locate & Unbox hardware (10" Elo touchscreen monitor, POE adapter, security bolts, Honeywell scanner, Audio jack, patch cable, mounting bracket)

Install new device (NOTE ADA Required height)

Perform Cat6a cable run back to prescribed IDF or MDF.

Plug network cable into ELO monitor

Once plugged in, confirm app load and work with Deployment Support to resolve if needed

**PRINT: Tech to mark the location of the installed ELO Device on a store print. This print should clearly show where new Device is.

TABLET MUST BE INSTALLED VERTICAL

* Trip: 2 technicians are required for (1) trip DAYTIME hours. Note - If Control Room is the only MDF/IDF within distance, a return trip will be required to complete before/after store hours.

* Materials: CrossCom will provide cabling materials; VFT will provide miscellaneous cable management

* Special tools: Stud finder, 9/64 & 5/16 drill bits, digital camera, Cat 6 cable tester with downloadable results. Ladders (6', 8' & 12'), Label Maker

* The technicians will log in and out with the CrossCom National Project Team @ 800-820-9229.

* Deliverables will be required to validate work completion and craftsmanship. All deliverables must be uploaded through the vendor portal prior to leaving the work site. Failure to provide deliverables will result in non-payment.
