

PLEIOSPILOS NELII
“SPLIT ROCK”

IDEAL LIGHT

Prefers full sun but can tolerate shade and indoor growing.

WINTER HARDINESS

Not frost tolerant - protect from freezing

PROPAGATION METHODS

Division, seeds

WATER NEEDS

Water only when soil is dry. Water sparingly during the winter.

MATURE SIZE

5 inches tall | 4 inches wide

ADDITIONAL NOTES

This egg-shaped succulent has two gray-green leaves and a cleft down the center. New leaves grow at right angles to the split.

“Split Rock” grows well indoors, making it perfect for a windowsill garden. It flowers in the winter, with orange blooms that smell like coconut!
