#### Site Location Information

**Customer:** CVS Pharmacy  
**Site Number:** 16818  
**Location:** TargetStore/ CVS RX 1486  
2400 N Druid Hills Rd NE  
Atlanta, GA 30329  
(404) 267-0061  
**Site Contact:** Store Manager

#### Technician Information

**Technician Name:** Marlon Dardaine  
**Technician Phone:** (347) 793-4164  
**Techs Manager:**  
**Manager Phone:** 4058021262

**\*\*\* MUST CALL UPON ARRIVAL AND BEFORE SITE DEPARTURE \*\*\***

**NET Contact Info:** Please Call: 1.608.827.2270 \*Your call will be handled in the order received\* The following login information is needed: name, callback number (mobile), work order #.

#### Scheduling

1 billable technician required Arrival Time: 8/30/2021 7:45 AM

#### Scope of Work

CVS - Broadband Router 2021 - TARGET SITE- HARD ETA

NET techs will LOG IN/LOG OUT LIVE by calling (608) 827-2270. DO NOT AUTO LOG IN\*

IMMEDIATELY CALL CVS\_ROC 888-401-4601, Option 1.1 for Broadband \*\*In order to ensure accurate onsite times, tech will need to log in with NET Support and then immediately log in with CVS ROC and vice versa. If there is more than 15min time discrepancy between the NET and CVS onsite time, we will use the login/out times provided by ROC.

ROC will provide you with a PIN that you will need to share with the Target manager for access to complete the work. Once PIN is received, tech can proceed to the main store entrance. The store should be expecting the visit. There should also be a bell on the outside of the building to notify the store personnel that someone needs entrance.

If the CVS store personnel question the validity of this visit, the manager can call 888-401-4601, Option 1.1 (CVS-ROC) or can reference this CVS Help Desk ticket number: INC11014686 (AUGUST 2021)

PPE requirement: Use of Face Masks or Cloth Face Covers

\*Use Redbook for reference on Modem connections

1. After logging in with ROC, work with Target manager to gain access into the TARGET control room.
2. Once inside the control room, locate the Broadband modem- If not found or located anywhere else - let the ROC know
  - a. Label modem "CVS Retail BB" and label the Modem Power Cord "Modem Power" Labels should be affixed to the cables approximately 12-inches from the Modem side
  - b. Take required photos of Modem
3. IMPORTANT- If the modem is installed in Managers Office at data rack, Modem MUST be connected to the UPS battery backup connection. If the modem is installed at the demarc this will not apply. If no available ports on UPS, tech can plug into next available power source. If this is a Target site, UPS will be at UPS rack at CVS Rx data rack. This information will be reported to NET at log out. Take photo of modem power connection to UPS
4. Locate and utilize any available red 500 series jack (if cable test pass) and make the connection to the modem. 500 series jacks run to CVS data rack
  - a. Label modem cable "CVS Broadband Cable"
  - b. Take photo of jack/cable
5. Tech will need to wait onsite until the CVS Rx opens and staff is onsite (May be up to 1-2 hours)
6. Once tech has access to CVS data rack, tech should connect the 500 series jack used in control room to port G0/2 on the Cisco 2911 Router as per CVS Redbook

Network Engineering Technologies  
3140 Deming Way  
Middleton, WI 53562
