SOW: Locate equipment that was shipped to site. Work with CarMax IT and store to install inventory scanner in desired locations. Even if there is no available data at the desired location, we still want to get the inventory scanner hooked up and tested at an available jack. If data run is needed to install scanner at desired location, survey for a cable run to add 2 new data jacks running to the nearest IDF. In most cases it will be the service or FQC IDFs.

Data jack scanner is patched into:

Switch port scanner is patched into:

Tools and Materials: cable tester, toner, spare jacks and spare patch cords

Please take photos showing all completed or surveyed work and submit to DSS@nettechnology.com with the work order ID# in square brackets as the email subject. Ex subject: [1000000]. If you are not familiar with DSS please ask NET support tech for help.
